c. If you are interested in continuing to receive Word of the Day from the Diocese, then there is a [SUBSCRIBE](#) button found after clicking on the links provided above.

3. FOCUS Diaspora Online Magazine July 2019

Dear Friends in Christ:

FOCUS (an acronym 'For Christian Understanding and Solidarity') is a lay movement formed in the late Nineties in England for the laity of the Mar Thoma Church living around the world. It is now an independent ecumenical movement of the worldwide Christian Diaspora laity. We started publishing a quarterly online journal under the name FOCUS since April 2013. It is the first of its kind in the history of any Diaspora Christians/denominations from India. As Pope Francis said, the numbers of 'religious nones' are increasing in the world especially in the Western countries. This tendency is affecting all Christian generations. Therefore, it is necessary that the ethos of various Christian denominations should be handed down for the benefit of the future generations. FOCUS aims to encourage Christian faith formation by preserving the timeless truth while adapting to the cultural shifts and times by transmitting the unconditional love of God, Christian understanding, solidarity and religious tolerance through its online quarterly magazine. We seek your blessings, support and prayers for this endeavor.

The FOCUS editorial board has initiated to give a more ecumenical and global perspective to the FOCUS online Journal. It was decided to solicit articles from writers who belong to diverse backgrounds and church traditions. The links to the online magazine are given below.
